## MEDAL MAIL BEGINNERS

### Beginner modules

By now you have (almost) joined 1, 2 or 3 beginner modules of Lindy Hop. In this file we tell you how to go from now on.

Today we have dealt the medals belonging to the last module. If you received it, a little dance of joy or a rewarding beer in place!

Did you not receive the medal yet?

There can be a few reasons for that:

1. You were not there the last class
2. You have missed 2 or more classes past module
3. You did not get the basics of this module yet

There are a few ways to get this medal after all. Register for the same module in a few months, book a private class with us or practise a lot at home and ask for a level check with one of us.

Either way you are welcome to discuss possibilities with us.

At JazzOut we feel that levels do not fit the social en creative aspect of the dance Lindy Hop. For that reason we work in a unique way.

Every beginner has to receive 3 basic medals. In these same-named modules you learn the most important basic principles, basic repertoire and basic vocabulaire which every beginner should know.

The medals & modules are called 6-count basics, 8-count basics, Charleston basics

You can join these 3 modules in every order. The whole year through (except summer) we repeat these modules.

After receiving all 3 medals you can choose the modules which you like to join. Check them out to see which medals you need to join.

### FAQ What to do when I did not get the right medal?

Discuss with your teachers what the best option for you is. There are multiple solutions.

### How do I know if I will receive the medal?

First check with yourself how it is going. Are you able to do the basic step and moves without too much thinking? It doesn't have to be perfect but you should feel that the classes suit your level.

Second, were there more than half of the classes?

If you are in doubt whether you will receive the medal, discuss, before registering, with your teachers. In person, through app, phone or email. After 3rd class we mostly know if you will receive the medal.

### The basic step is not going so well, what can I do?

Practice, practise, practise. Register for the module in which this is taught. Even if this means you joined the module for the 3rd time already. The basics is the most important, then the rest will come. The other way around will not work. Ask your teachers for help, practise material, go to socials and dancing nights. Practise during brushing teeth, copying or cleaning the house.

### I want to join 2 modules at the same time, can I?

Yes, we even encourage it, how more you dance, the better it will go.

### How do I know which modules to pick?

We have a year overview for that. [Check it out here.](#)

You can also register through that page.

Any questions? Let us know!

See you on the dancefloor!

Swinging Regards,

The JazzOut team
